## Student Spotlights

Congratulations to **Joy Resig** on her acceptance to the DAAD Research Internships in Science and Engineering program. She will conduct nanoparticle and laser ablation research this summer at the University of Wuppertal.

Congratulations to **Hunter Coady**, recipient of the 2026 English-Speaking Union Scholarship. ESU funds a three-week program at Oxford where Hunter will study creative writing.

Congratulations to **Jose Villanos** on receiving a 2026 Barry M. Goldwater Scholarship. This award supports students pursuing research careers in STEM and will help advance his graduate school goals and work in the life sciences.

## Award Spotlight: Marshall Scholarship

- The Marshall Scholarship empowers exceptional young Americans to pursue graduate study in the United Kingdom, with up to 50 scholars selected each year to study at top UK institutions in any field.
- Designed to shape future leaders, the program fosters a deep understanding of British society while strengthening the enduring partnership between the U.S. and the U.K.
- Marshall Scholars are driven, intellectually curious, and globally minded, and their time abroad fuels both personal growth and academic excellence.
- Through immersive experiences in world-class programs, students build the knowledge, perspective, and connections that propel them toward lasting success.

**Campus Deadline: Sept. 2**

### Are you interested in the Fulbright Program?

It's not too early to start preparing your Fulbright application for the September 8 campus deadline. Now is a great time to explore locations and to start connecting with recommenders. **Opt-in to our new Fulbright Canvas shell for more resources: [Fulbright Canvas Shell](#)**
